Attestation On Time was founded in the year 2017 headquartered in Dubai. We have been involved in documentation business since 2013 and have a great deal of experience with clients worldwide. We serve customers all across Oil and Gas, Tours and Travels, Banking & Finance, Relocation, Business Setup companies, Schools & Universities, Real Estates and Construction companies.

We started this company with an objective to help the locals and the expats who are having trouble with attesting their certificates for various reasons. On the very first day, we collected documents for getting UAE attestation for USA documents and Indian documents those were birth and marriage certificates. The two documents what we collected on day one gave us confidence that on daily basis our document count started to increase. Thanks to our valuable customers.

We are giving 100% importance to each and every document which we handle. Satisfied customers are more in numbers, hence we are getting many new customers through reference on daily basis. By choosing our service we assure you that complete legalization will be done from our end. Each and every document which we handle is been taken care as our own document. We use trustable courier service for shipping the documents from one country to another which ensures the safety of the documents. After service call has been introduced by the board of directors to ensure our service have not gone down at any point of time.

We are able to attest documents from almost all the countries. We ensure same day delivery is taking place from all the relevant departments. Our staffs are experienced in handling all type of documents. Upon submitting good number of documents to the embassy and by following the government requirements we have got the privilege of submitting documents directly to the authorities without any help of third parties or brokers.

Opportunity knocks only once – VIP Service has been introduced recently for clients who are in a hurry. Documents such as education/personal or commercial documents can be attested without your physical presence in a short span of time. Each and every document which we handle is been verified in the first phase ensuring the chance of rejection is NIL. Our goal is to simplify the process of documentation.
